

## Can I have an email account for a subdomain?

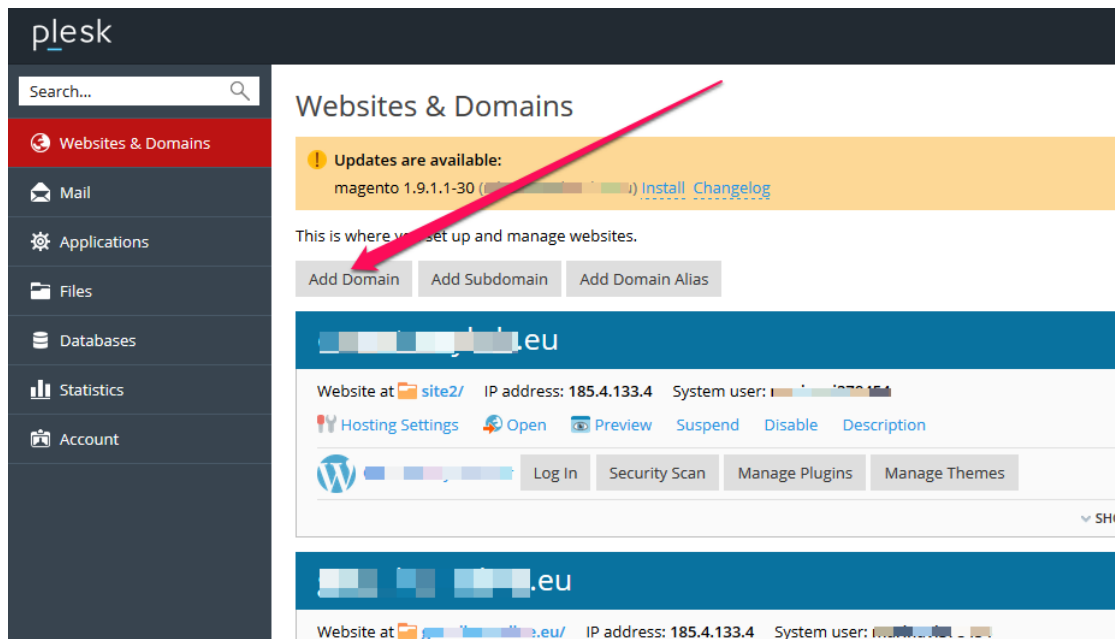

- 2021-07-15 - [Email](#)

In case you want to create email accounts for your subdomains, you can add them to your plesk as a domain and then create your email accounts, following the instructions described below:

1. Log into [myTophost Panel](#) and then click on **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.

2. In the tab **Websites & Domains**, click on **Add domain**.

3. In the blank field (1) enter the desired subdomain, leave all the settings on default and click on (2) **OK**.

Adding New Domain Name

Domain name \*  1

Location of the website's files \*  2

Hosting type

☒ Activate the DNS service

☒ Activate the mail service

Hosting Settings

Document root \*  3

Preferred domain \*  4

Your Files to Copy to Hosting

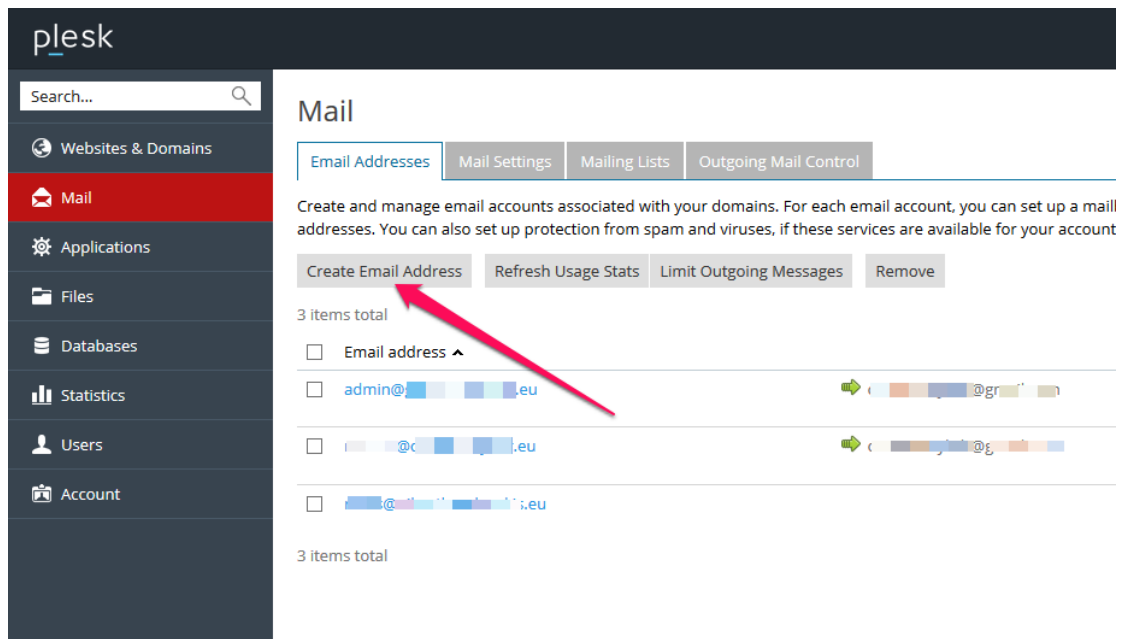

Secure with an SSL/TLS Certificate

☐ Secure the domain with Let's Encrypt

Let's Encrypt is a certificate authority (CA) that allows you to create a free SSL/TLS certificate for your domain. The certificate will be renewed automatically every month. By clicking the "OK" button you acknowledge that you have read and agree to the [Let's Encrypt Terms of Service](#).

\* Required fields

4. In the **Email** tab, click on **Create Email Address**.

5. On the next tab (**Create Email Address**) enter the following:

-The name of the email account (e.g. info) and select your subdomain from the drop down menu.

-The password that you want for your email account (it must contain symbols, letters and numbers) (2).

-Confirm the code by entering it a second time (3).

-Click on **OK** (4).
