

Can I have an email account for a subdomain?

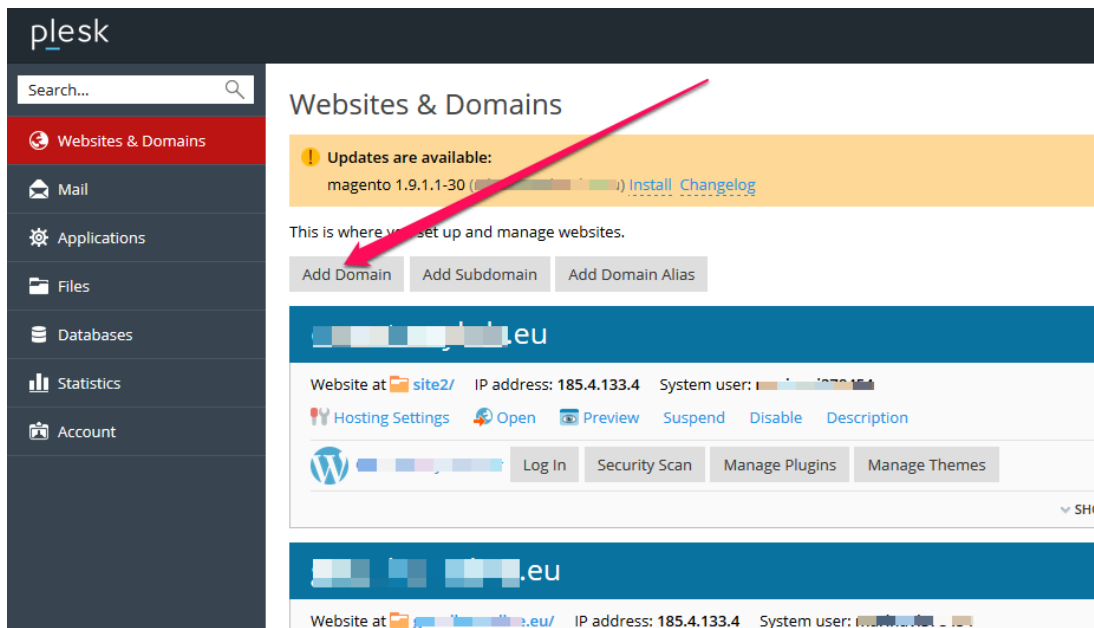

- 2021-07-15 - Email

In case you want to create email accounts for your subdomains, you can add them to your plesk as a domain and then create your email accounts, following the instructions described below:

1. Log into [myTophost Panel](#) and then click on **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.

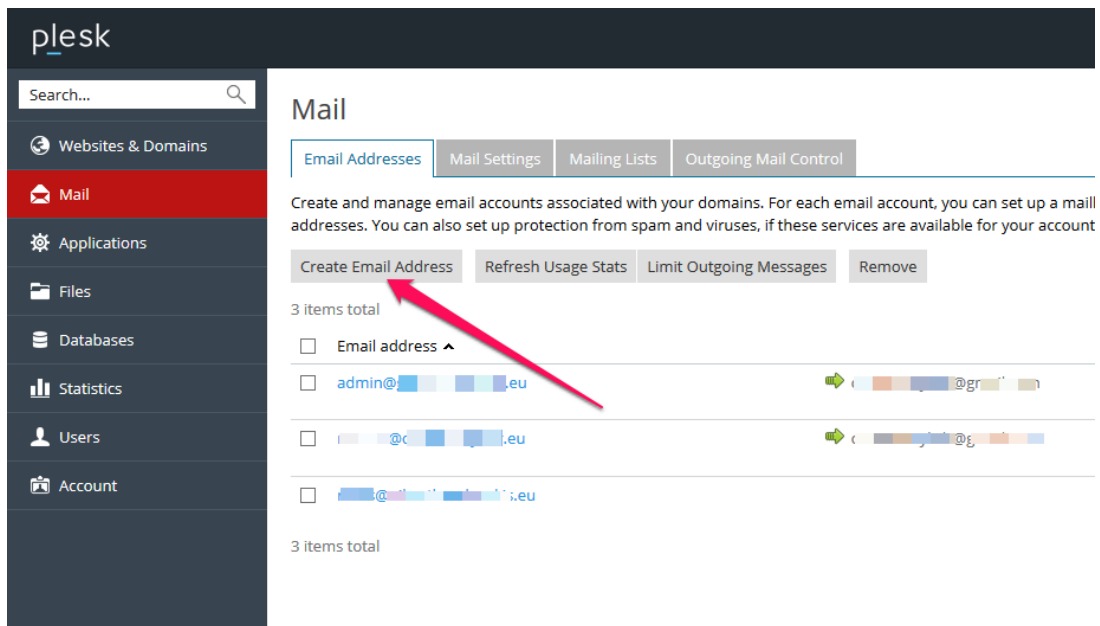

2. In the tab **Websites & Domains**, click on **Add domain**.

3. In the blank field (1) enter the desired subdomain, leave all the settings on default and click on (2) **OK**.

4. In the **Email** tab, click on **Create Email Address**.

5. On the next tab (**Create Email Address**) enter the following:

-The name of the email account (e.g. info) and select your subdomain from the drop down menu.

-The password that you want for your email account (it must contain symbols, letters and numbers) (2).

-Confirm the code by entering it a second time (3).

-Click on **OK** (4).

Create Email Address

General Forwarding Email Aliases Auto-Reply Spam Filter

If this email account is associated with an auxiliary user (Access to the Customer Panel is enabled), the changes you make on this page affect this user as well.

Email address * **1** info @ [domain] [v]

Access to the Customer Panel (username: info@[domain])

Password **2** [password] [eye] Strong (?)

This password will be used for accessing the mailbox and for logging in to Plesk if the address is associated with an auxiliary user.

Generate Show

Confirm password **3** [password] [eye]

Mailbox Default size (200 MB) Another size [input] MB [v]

The mailbox size cannot exceed the default size.

The maximum number of outgoing email messages Default Custom value for the mailbox [input] messages Unlimited

Description in Plesk [text area]

The description is visible to everyone who has access to this email account.
