Πώς μπορώ να πραγματοποιήσω ένα email forward (ανακατεύθυνση) μέσα από το Plesk Onyx;

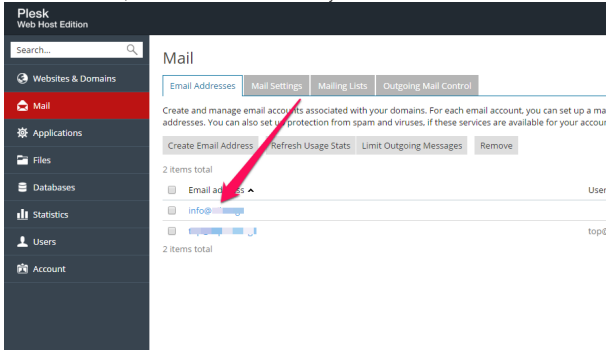

- 2020-03-13 - Email

You can redirect the email account that you have created in Plesk to another email account, by taking the following steps:

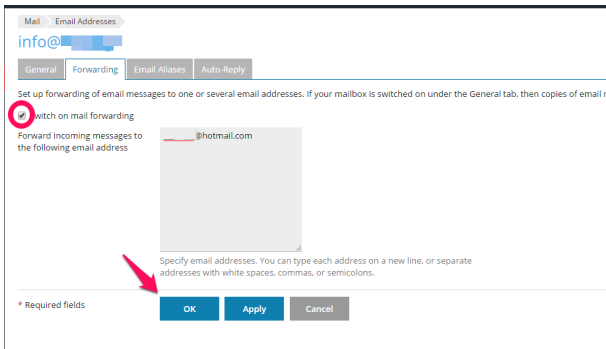

1. Log into [myTophost Panel](#) and select **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.

2. In the tab **MAIL**, select the email account that you wish to redirect.

3. In the tab **Forwarding**, click on **Switch on mail forwarding**, in order to enable the forward option, enter the final email account in the big blank box and click on **OK**.

4. Once you have enabled the option, you will see the following icon:
