How can I change my DNS service from Master to Slave using Plesk?

- 2021-08-10 - <u>DNS</u>

If you are hosting your sites through Plesk and you have an independent DNS server that acts as a main server (Master), you have the possibility to have Plesk act as a secondary server (Slave). In order to switch the two servers, follow the instructions described below:

1. Log into <u>myTophost Panel</u> and click on **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.
