# How can I change the password of my email account in plesk Onyx?

- 2021-08-02 - Email

In order to change the **password** for your email account in Plesk, take the following steps:

1. Log into [myTophost Panel](#) and select **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.
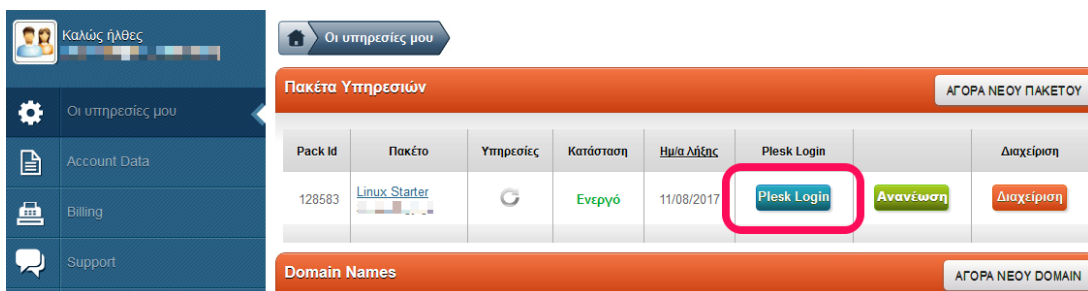

2. In the tab **Mail**, select the email account.

3. In the fields **password** and **confirm password**, enter your new password and click on **OK**.

Mail ＞ Email Addresses

info@▮▮ ▮▮

General | Forwarding | Email Aliases | Auto-Reply

If this email account is associated with an auxiliary user (Access to the Customer Panel is enabled), the changes you make on this page changed to the new values as well.

Email address *   [info   ] 🔲 @r▮▮▮▮

☐ Access to the Customer Panel (username: info@▮▮▮)

Password   [⦿] ⬅

This password will be used for accessing the mailbox and for logging in to Plesk if the address is associated with an auxiliary user.

[Generate] [Show]

Confirm password   [⦿] ⬅

☑ Mailbox   ⦿ Default size (▮▮▮▮)
                         ○ Another size [   ] [KB ▼]

The mailbox size cannot exceed the default size.

The maximum number of   ⦿ Default (300 messages per hour)
outgoing email messages   ○ Custom value for the mailbox
                               [0]   messages   ☐ Unlimited

Description in Plesk   [   ]
                         [   ]
                         [   ]

The description is visible to everyone who has access to this email account.
