How can I delete an application that I have installed in Plesk?

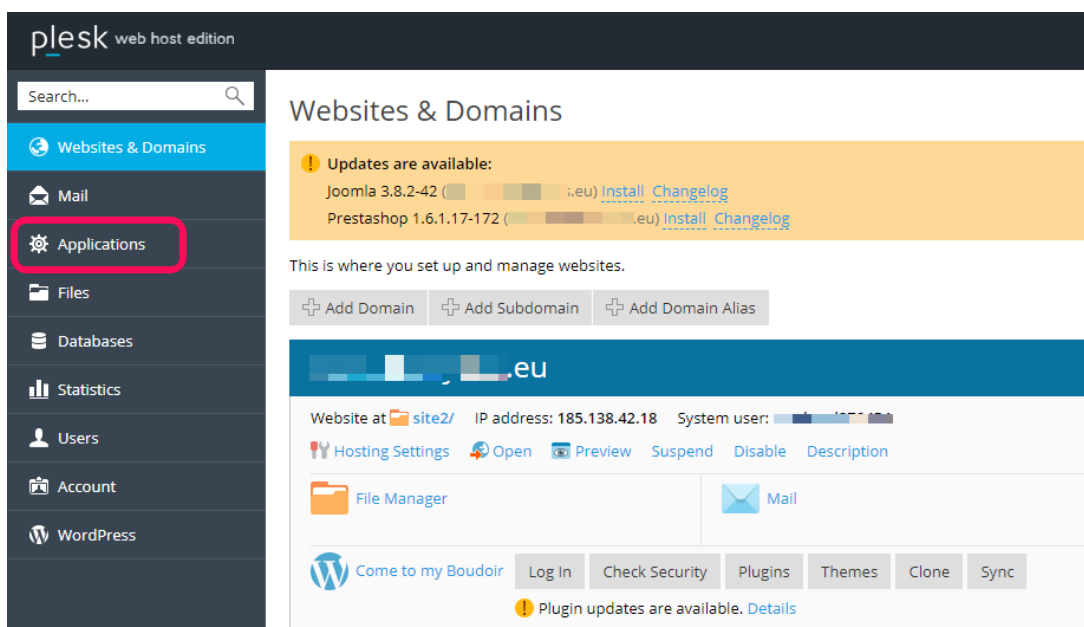

- 2021-08-19 - Άλλες

In case you want to delete an application (e.g. WordPress, Joomla) that you have installed in Plesk, follow the instructions described below:

1. Log into [myTophost Panel](#) and click on **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.

2. Click on **Applications** in the **left vertical column**.

3. On the right-hand side of each installed application, you will have the possibility to disable it by clicking on **Remove**.
