HELP

I can't remember my password for myTophost Panel. What can I do?

- 2023-01-31 - Διαχείριση

If you can't remember your password and if you still have access to the email address connected to your Top.Host account, you can restore your myTophost Panel password with a few clicks.

1. Go to this address: https://top.host/shop/passwordremind.php and enter the management email, that you used to register as a Top.Host member.

2. Click on **Send link** and you will receive an email with the subject **Restore myTophost Panel Password**.

3. Click on the link in the email to change your password. You will get to a page where you must enter your new password and click on **Save**.

The password must consist of Latin characters, numbers or symbols !@#$%^&*?_~ and contain 6 to 24 characters.

You didn't receive an email for your password change?

- Check your Spams, it might be there.
- Make sure that you have entered the email address that is linked to your account.
- Try to ask for an email again, maybe you simply made a typo.
