How can I find the MySQL version that I'm using in Plesk Onyx?

- 2020-03-16 - Databases

In order to find the MySQL version that you are using, take the following steps.

1. Log into myTophost Panel and select **Plesk Login** in order to connect to the Plesk of the plan that you are interested in.
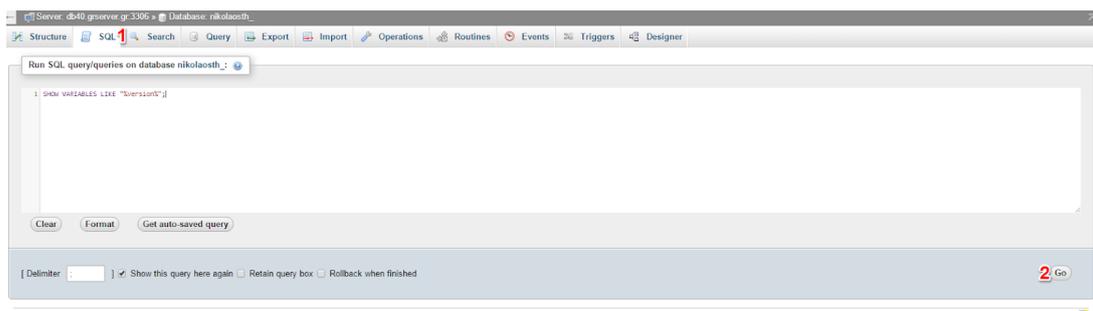

2. Click on **Databases** (on the right-hand side of the main window).

3. Click on **phpMyAdmin** for the base you wish to see the version of (make sure that the browser that you are using does not block pop-up windows).

4. Select **SQL** and enter the following command: **SHOW VARIABLES LIKE** "**%version%**"; and click on **GO**.

5. You can see the MySQL version as shown below.

Show query box

Your SQL query has been executed successfully.

SHOW VARIABLES LIKE "%version%"

+ Options

Variable_name	Value
