The exact path for files and folders on the server

- 2021-08-08 - FTP/ File Manager

The exact path to a file or folder in your domain's hosting plan, is the following:

For Windows Hosting → **C:\inetpub\vhosts\my-domain-name.gr\httpdocs**

For Linux Hosting → **/var/www/vhosts/my-domain-name.gr/httpdocs**

Replace **my-domain-name.gr**, with your own domain. Add the file or the folder at the end of the path.
