How can I connect a hosting plan to a domain name? Lila TEST - 2019-10-21 - Διαχείριση

In order to connect the hosting plan that you purchased from Top.Host to your domain name, you need to follow the 5 steps below:

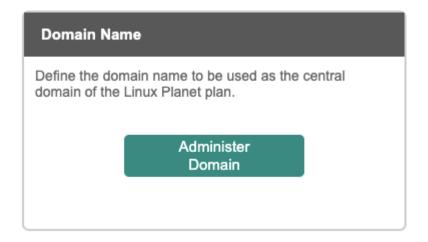

1. Log into <u>myTophost Panel</u>.

	-			
and the second		ost ME SUPPORT	<u>GR</u>   EN	
-	myT	ophost Lo	ogin	
A DESCRIPTION OF THE OWNER OWNER OF THE OWNER OWNER OF THE OWNER	Email			
	Password			
	Show Password			
		SECURE LOGIN		
Serie and	Forgot Password		Not a member? <u>Sign up now</u>	
	the second		A seaso	A CONTRACTOR

2. In **My services** you can see that the hosting plan has automatically been connected to a temporary address. Click on the button **Manage** to proceed with the setting.

Shared Hosting BUY NEW PLAN							
Pack Id	Package	Services	Status	Expiration date	Plesk Login		Manage
179564	Linux Planet 130656855.linuxzone90.grserver.gr	C	On	12/12/2019	Plesk Login	Renew	Manage

3. Click Administer Domain in the Domain Name box.

4. Insert the domain name that you wish to connect to your hosting plan and click **Update**.With this procedure, the domain name is automatically added in Plesk.

dminister Domain Linux	< Planet	
Domain Name: 1306568	55.linuxzone90.grserver.gr	
	main domain for your Linux Planet plan. To ne new domain in the according field and click t	
	st's automated backup service will start taking I any available backups locally on your compu	
Connected Domain: www.	130656855.linuxzone90.grserver.gr	

5. In order to complete the procedure and for the domain name to load your site from the hosting plan, you need to update the nameservers of the domain name. In order for the ISPs to be updated with the new nameservers, there might be needed up to 48 hours.
