

## Incoming and Outgoing mail server change - Outlook 2013

- 2023-04-01 - Email Clients

If you wish to change the hostname to your incoming and outgoing email server and you use Outlook 2013, follow the instructions below:

1. Open your Outlook 2013 account and click "File" and "Account Settings".

### Account Information

 ████@████.eu (1)  
IMAP/SMTP

[+ Add Account](#)

  
Account  
Settings ▾

**Account Settings**  
Change settings for this account or set up more connections.

  
Cleanup  
Tools ▾

**Mailbox Cleanup**  
Manage the size of your mailbox by emptying Deleted Items and archiving.

  
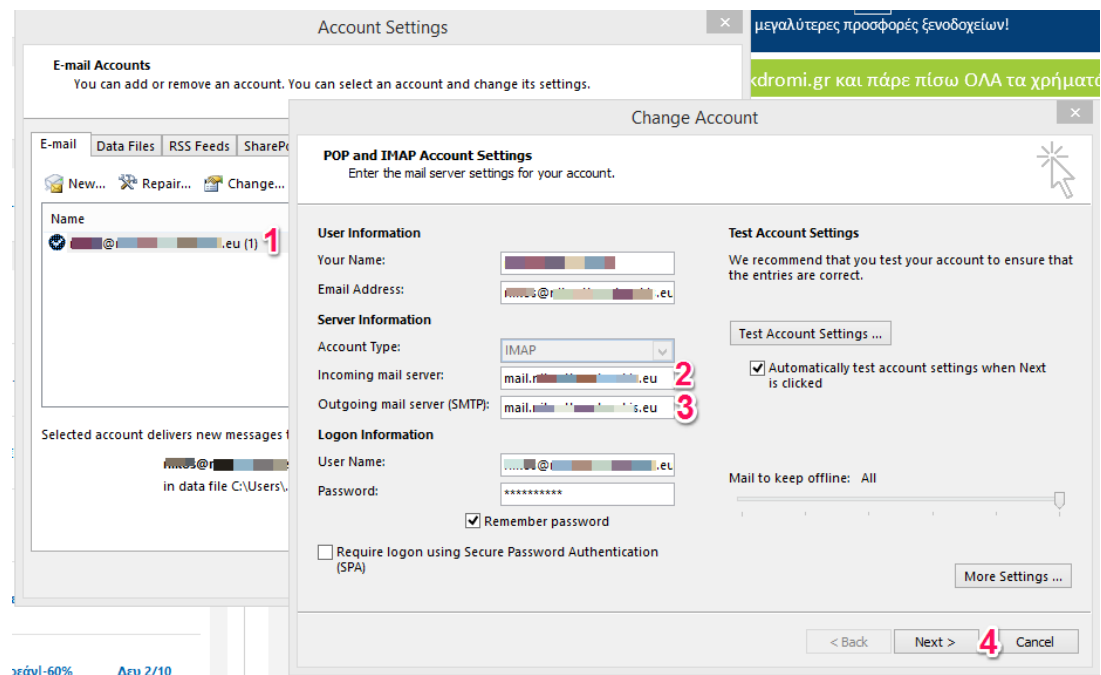

Manage Rules  
& Alerts

**Rules and Alerts**  
Use Rules and Alerts to help organize your incoming e-mail messages, and receive updates when items are added, changed, or removed.

  
Manage COM  
Add-Ins

**Slow and Disabled COM Add-ins**  
Manage COM add-ins that are affecting your Outlook experience.

2. In the new Account Settings dialog box, double-click your email account (1) to Incoming and Outgoing mailserver (2), (3) delete the records and enter the temporary hostname eg linux77.papaki.gr

The hostname can be found in the email "Web Hosting Activation - Account Login Information", in the fields "FTP Access Information" and "Temporary Hostname", as shown in the following picture:
