Incoming and Outgoing mail server change - iPhone

- 2023-04-01 - Email Clients

If you wish to change the hostname to your incoming and outgoing email server and you use iphone email client, follow the instructions below:

1. Click "Settings" and then "Mail, Contacts, Calendar" as you can see below:

2. Find your account and at the Incoming and Outgoing mail server in the field of hostname field, delete the records and enter the temporary hostname eg linuxzone77.grserver.gr
